## Subject Index

- Adolescence  
Relationship between compliance by adolescent orthodontic patients and performance on psychological tests; Cucalon and Smith; Summer, 107-114
- Airway  
The long face syndrome and impairment of the nasopharyngeal airway; Tourne; Fall, 167-176
- Alginate  
The dimensional stability of self-disinfecting alginate impressions compared to various immersion regimes; Jones, Newcombe, Bellis and Bottomley; Summer, 123-128
- Anchorage  
Rigid endosseous implant utilized as anchorage to protract molars and close and atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Appliance analysis  
Orthodontic forces generated by a simulated archwire appliance evaluated by the Finite Element Method; Fotos, Spyarakos and Bernard; Winter, 277-282
- Atrophic ridge  
Rigid endosseous implant utilized as anchorage to protract molars and close and atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Biomechanics  
Rigid endosseous implant utilized as anchorage to protract molars and close and atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Bone physiology  
Rigid endosseous implant utilized as anchorage to protract molars and close and atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Bone remodeling  
Rigid endosseous implant utilized as anchorage to protract molars and close and atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Brodie Syndrome  
Case Report AE: Non-surgical correction of a severe Class II malocclusion (Brodie Syndrome); Yogosawa; Winter, 299-304  
Case Report MM: Surgical-orthodontic correction of bilateral buccal crossbite (Brodie Syndrome); Ramsey, Wallen and Bloomquist; Winter, 305-311
- Canines  
The morphology of canines in relation to preadjusted appliances; Germane, Bentley, Isaacson and Revere; Spring, 49-54
- Centroid analysis  
A new cephalometric parameter to aid in dental base relationship analysis; Sarhan; Spring, 59-64
- Cephalometric  
Evaluation of rare earth intensifying screens in cephalometric radiography; Stathopoulos and Poulton; Spring, 9-16  
Stability of anterior openbite treated with crib therapy; Huang, Justus, Kennedy and Kokich; Spring, 17-26  
Israeli cephalometric standards compared to Downs and Steiner analyses; Bleis, Brezniak and Lieberman; Spring, 35-42

- Cephalometric analysis**  
A new cephalometric parameter to aid in dental base relationship analysis; Sarhan; Spring, 59-64
- Cephalometry**  
Cephalometric evaluation of pharyngeal obstructive factors in patients with sleep apneas syndrome; Bacon, Turlot, Krieger and Stierle; Summer, 115-122
- Ceramic**  
The fracture strength of ceramic brackets: a comparative study; Flores, Caruso, Scott and Jeiroudi; Winter, 269-276
- Chin**  
Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Chinese children**  
"Wits" appraisal in Southern Chinese children; So, Davis and King; Spring, 43-48
- Class II malocclusion**  
The timing of treatment for Class II malocclusions in children: a literature review; King, Keeling, Hocevar and Wheeler; Summer, 87-98
- Cobalt-Chromium-Nickel alloy**  
Load-deflection rate measurements of activated open and closed coil springs; Boshart, Currier, Nanda and Duncanson; Spring, 27-34
- Coil springs**  
Load-deflection rate measurements of activated open and closed coil springs; Boshart, Currier, Nanda and Duncanson; Spring, 27-34
- Collum angle**  
The morphology of canines in relation to preadjusted appliances; Germane, Bentley, Isaacson and Revere; Spring, 49-54
- Compliance**  
Relationship between compliance by adolescent orthodontic patients and performance on psychological tests; Cucalon and Smith; Summer, 107-114
- Cost-benefit**  
The timing of treatment for Class II malocclusions in children: a literature review; King, Keeling, Hocevar and Wheeler; Summer, 87-98
- Crib**  
Stability of anterior openbite treated with crib therapy; Huang, Justus, Kennedy and Kokich; Spring, 17-26
- Dental arch length**  
Stability of mandibular incisors following excessive proclination: a study in adults with surgically treated mandibular prognathism; Artun, Krogstad and Little; Summer, 99-106
- Dental base analysis**  
A new cephalometric parameter to aid in dental base relationship analysis; Sarhan; Spring, 59-64
- Dentofacial development**  
Myofunctional and dentofacial relationships in second grade children; Gross, Kellum, Hale, Messer, Benson, Sisakin and Bishop; Winter, 247-254
- Dimensional stability**  
The dimensional stability of self-disinfecting alginate impressions compared to various immersion regimes; Jones, Newcombe, Bellis and Bottomley; Summer, 123-128
- Direction of forces**  
Orthodontic forces generated by a simulated archwire appliance evaluated by the Finite Element Method; Fotos, Spyarakos and Bernard; Winter, 277-282
- Disinfection**  
The dimensional stability of self-disinfecting alginate impressions compared to various immersion regimes; Jones, Newcombe, Bellis and Bottomley; Summer, 123-128
- Early treatment**  
The timing of treatment for Class II malocclusions in children: a literature review; King, Keeling, Hocevar and Wheeler; Summer, 87-98
- Endosseous implant**  
Rigid endosseous implant utilized as anchorage to protract molars and close an atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152  
  
Case Report DM: Orthodontic treatment enhances the use of endosseous implants to replace missing teeth; Iwe; Summer, 153-157
- Enucleation**  
Vertical changes in high mandibular plane cases following enucleation of second premolars; Garlington and Logan; Winter, 263-268
- Ethnic variation**  
Israeli cephalometric standards compared to Downs and Steiner analyses; Bleis, Brezniak and Lieberman; Spring, 35-42
- Facial change**  
Predicting soft tissue profile changes concurrent with orthodontic treatment; Yogosawa; Fall, 199-206
- Facial height**  
Serial extraction of first premolars-postretention evaluation of stability and relapse; Little, Riedel and Engst; Winter, 255-262
- Facial morphology**  
Little influence on tooth position from playing a wind instrument; Rindisbacher, Hirschi, Ingervall and Geering; Fall, 223-228

- Fatigue
  - Rigid endosseous implant utilized as anchorage to protract molars and close and atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Finite Element Method
  - Orthodontic forces generated by a simulated archwire appliance evaluated by the Finite Element Method; Fotos, Spyarakos and Bernard; Winter, 277-282
- Fracture strength
  - The fracture strength of ceramic brackets: a comparative study; Flores, Caruso, Scott and Jeiroudi; Winter, 269-276
- Fracture toughness
  - The fracture strength of ceramic brackets: a comparative study; Flores, Caruso, Scott and Jeiroudi; Winter, 269-276
- Functional appliance
  - The timing of treatment for Class II malocclusions in children: a literature review; King, Keeling, Hocevar and Wheeler; Summer, 87-98
- Geometric model
  - The relationship between bite depth and incisor angular change; Eberhart, Kufnec and Baker; Spring, 55-58
- Headgear
  - The timing of treatment for Class II malocclusions in children: a literature review; King, Keeling, Hocevar and Wheeler; Summer, 87-98
- Heat treatment
  - Load-deflection rate measurements of activated open and closed coil springs; Boshart, Currier, Nanda and Duncanson; Spring, 27-34
- Incisal angulation
  - The relationship between bite depth and incisor angular change; Eberhart, Kufnec and Baker; Spring, 55-58
- Incisor irregularity
  - Stability of mandibular incisors following excessive proclination: a study in adults with surgically treated mandibular prognathism; Årtun, Krogstad and Little; Summer, 99-106
- Incisor proclination
  - Stability of mandibular incisors following excessive proclination: a study in adults with surgically treated mandibular prognathism; Årtun, Krogstad and Little; Summer, 99-106
- Intercanine width
  - Stability of mandibular incisors following excessive proclination: a study in adults with surgically treated mandibular prognathism; Årtun, Krogstad and Little; Summer, 99-106
- Israeli adolescents
  - Israeli cephalometric standards compared to Downs and Steiner analyses; Bleis, Brezniak and Lieberman; Spring, 35-42
- Landmark location
  - Evaluation of rare earth intensifying screens in cephalometric radiography, Stathopoulos and Poulton, Spring, 9-16
- Lip pressure
  - A study of the relationship of maximal perioral muscle pressure and tonic resting pressure using a pneumohydraulic capillary infusion system; Lubit, Wallach and Schwalb; Fall, 215-222
- Lips
  - Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Load
  - The fracture strength of ceramic brackets: a comparative study; Flores, Caruso, Scott and Jeiroudi; Winter, 269-276
- Load-deflection rate
  - Load-deflection rate measurements of activated open and closed coil springs; Boshart, Currier, Nanda and Duncanson; Spring, 27-34
- Long face syndrome
  - The long face syndrome and impairment of the nasopharyngeal airway; Tourne; Fall, 167-176
- Longitudinal growth
  - Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Lower anterior face height
  - The long face syndrome and impairment of the nasopharyngeal airway; Tourne; Fall, 167-176
- Mentolabial angle
  - Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Morphology
  - The morphology of canines in relation to preadjusted appliances; Germane, Bentley, Isaacson and Revere; Spring, 49-54
- Myofunctional
  - Myofunctional and dentofacial relationships in second grade children; Gross, Kellum, Hale, Messer, Benson, Sisakin and Bishop; Winter, 247-254
- Nasolabial angle
  - Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Nitinol
  - The effect of long-term deflection of permanent deformation of Nickel-Titanium archwires; Hudgins, Bagby and Erickson; Winter, 283-288
- Nocturnal enuresis
  - Rapid maxillary expansion in the treatment of nocturnal enuresis; Timms; Fall, 229-234

- Nose**  
Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Obstructive sleep apneas syndrome**  
Cephalometric evaluation of pharyngeal obstructive factors in patients with sleep apneas syndrome; Bacon, Turlot, Krieger and Stierle; Summer, 115-122
- Occlusion epidemiology**  
Epidemiologic panorama of dental occlusion; El-Mangoury and Mostafa; Fall, 207-214
- Occlusal variation**  
Epidemiologic panorama of dental occlusion; El-Mangoury and Mostafa; Fall, 207-214
- Openbite**  
Stability of anterior openbite treated with crib therapy; Huang, Justus, Kennedy and Kokich; Spring, 17-26
- Oral muscular pressure**  
A study of the relationship of maximal perioral muscle pressure and tonic resting pressure using a pneumohydraulic capillary infusion system; Lubit, Wallach and Schwalb; Fall, 215-222
- Orthodontic forces**  
Orthodontic forces generated by a simulated archwire appliance evaluated by the Finite Element Method; Fotos, Spyarakos and Bernard; Winter, 277-282
- Orthodontic treatment**  
Relationship between compliance by adolescent orthodontic patients and performance on psychological tests; Cucalon and Smith; Summer, 107-114
- Orthodontic wires**  
The effect of long-term deflection of permanent deformation of Nickel-Titanium archwires; Hudgins, Bagby and Erickson; Winter, 283-288
- Orthognathic surgery**  
Case Report DM: Orthodontic treatment enhances the use of endosseous implants to replace missing teeth; Ivey; Summer, 153-157
- Overbite**  
The relationship between bite depth and incisor angular change; Eberhart, Kufnec and Baker; Spring, 55-58
- Panorama of dental occlusion**  
Epidemiologic panorama of dental occlusion; El-Mangoury and Mostafa; Fall, 207-214
- Peri-implant inflammation**  
Rigid endosseous implant utilized as anchorage to protract molars and close and atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Permanent deformation**  
The effect of long-term deflection of permanent deformation of Nickel-Titanium archwires; Hudgins, Bagby and Erickson; Winter, 283-288
- Pneumohydraulic capillary infusion system**  
A study of the relationship of maximal perioral muscle pressure and tonic resting pressure using a pneumohydraulic capillary infusion system; Lubit, Wallach and Schwalb; Fall, 215-222
- Postretention**  
Serial extraction of first premolars-postretention evaluation of stability and relapse; Little, Riedel and Engst; Winter, 255-262
- Preadjusted appliances**  
The morphology of canines in relation to preadjusted appliances; Germane, Bentley, Isaacson and Revere; Spring, 49-54
- Prediction**  
Predicting soft tissue profile changes concurrent with orthodontic treatment; Yogosawa; Fall, 199-206
- Premolar autotransplantation**  
Case Report AJ: Premolar autotransplantation - eight years later; Righellis; Fall, 235-239
- Preventive orthodontics**  
Epidemiologic panorama of dental occlusion; El-Mangoury and Mostafa; Fall, 207-214
- Prosthetic treatment**  
Case Report DM: Orthodontic treatment enhances the use of endosseous implants to replace missing teeth; Ivey; Summer, 153-157
- Psychological testing**  
Relationship between compliance by adolescent orthodontic patients and performance on psychological tests; Cucalon and Smith; Summer, 107-114
- Pterygomaxillary vertical plane**  
Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Radiation**  
Evaluation of rare earth intensifying screens in cephalometric radiography; Stathopoulos and Poulton; Spring, 9-16
- Rapid maxillary expansion**  
Rapid maxillary expansion in the treatment of nocturnal enuresis; Timms; Fall, 229-234
- Rare earth screen**  
Evaluation of rare earth intensifying screens in cephalometric radiography; Stathopoulos and Poulton; Spring, 9-16
- Reflex Metrograph**  
The dimensional stability of self-disinfecting alginate impressions compared to various immersion regimes; Jones, Newcombe, Bellis and Bottomley; Summer, 123-128

- Relapse
  - Stability of anterior openbite treated with crib therapy; Huang, Justus, Kennedy and Kokich; Spring, 17-26
- Serial extraction
  - Serial extraction of first premolars-postretention evaluation of stability and relapse; Little, Riedel and Engst; Winter, 255-262
- Sex difference in occlusion
  - Epidemiologic panorama of dental occlusion; El-Mangoury and Mostafa; Fall, 207-214
- Sexual dimorphism
  - Development of the nose and soft tissue profile; Genecov, Sinclair and Dechow; Fall, 191-198
- Soft tissue development
  - Development of the nose and soft tissue profile; Genecov, Sinclair and Dechow; Fall, 191-198
- Soft tissue profile
  - Predicting soft tissue profile changes concurrent with orthodontic treatment; Yogosawa; Fall, 199-206
- Soft tissue profile
  - Growth changes in the soft tissue facial profile; Nanda, Meng, Kapila and Goorhuis; Fall, 177-190
- Space closure
  - Rigid endosseous implant utilized as anchorage to protract molars and close an atrophic extraction site; Roberts, Marshall and Mozsary; Summer, 135-152
- Spring back
  - The effect of long-term deflection of permanent deformation of Nickel-Titanium archwires; Hudgins, Bagby and Erickson; Winter, 283-288
- Spring rate
  - Load-deflection rate measurements of activated open and closed coil springs; Boshart, Currier, Nanda and Duncanson; Spring, 27-34
- Stability
  - Stability of anterior openbite treated with crib therapy; Huang, Justus, Kennedy and Kokich; Spring, 17-26
  - Stability of mandibular incisors following excessive proclination: a study in adults with surgically treated mandibular prognathism; Årtun, Krogstad and Little; Summer, 99-106
  - Serial extraction of first premolars-postretention evaluation of stability and relapse; Little, Riedel and Engst; Winter, 255-262
- Stainless steel
  - Load-deflection rate measurements of activated open and closed coil springs; Boshart, Currier, Nanda and Duncanson; Spring, 27-34
- Stress
  - The fracture strength of ceramic brackets: a comparative study; Flores, Caruso, Scott and Jeiroudi; Winter, 269-276
- Stress analysis
  - Orthodontic forces generated by a simulated archwire appliance evaluated by the Finite Element Method; Fotos, Spyarakos and Bernard; Winter, 277-282
- Stress-relaxation
  - The effect of long-term deflection of permanent deformation of Nickel-Titanium archwires; Hudgins, Bagby and Erickson; Winter, 283-288
- Study casts
  - The dimensional stability of self-disinfecting alginate impressions compared to various immersion regimes; Jones, Newcombe, Bellis and Bottomley; Summer, 123-128
- Supernumerary teeth
  - Unusual supernumerary teeth; So; Winter, 289-292
- Tangent angle
  - The morphology of canines in relation to preadjusted appliances; Germane, Bentley, Isaacson and Revere; Spring, 49-54
- Treatment planning
  - Development of the nose and soft tissue profile; Genecov, Sinclair and Dechow; Fall, 191-198
- Upper airway obstruction
  - Rapid maxillary expansion in the treatment of nocturnal enuresis; Timms; Fall, 229-234
- Wind instruments
  - Little influence on tooth position from playing a wind instrument; Rindisbacher, Hirschi, Ingervall and Geering; Fall, 223-228
- "Wits" appraisal
  - "Wits" appraisal in Southern Chinese children; So, Davis and King; Spring, 43-48
